---

A skilled IT professional with 3.5 + years of hands-on experience in software development and data integration projects. Proficient in Python and AWS, with a proven track record of managing end-to-end development processes for critical data solutions. Adept at collaborating with diverse, geographically distributed teams to deliver high-quality results. Highly motivated to embrace new technologies, expand technical skills, and maintain flexibility in shift-based work environments.

## **SKILL SUMMARY:**

### **Technical Skills:**

- Python Programming
- AWS (SQS, SNS, S3, Lambda)
- SQL and Database Management (MySQL, PostgreSQL)
- RESTful API Development
- Git and Version Control
- Agile Development Methodologies
- CI/CD Tools (Gitlab & GitHub Actions)
- Gen AI (LLM models from Anthropic family)
- Data Integration and ETL Processes
- Terraform – Infrastructure as Code (IaC)
- Django
- Snyk – Security Scanning

### **Tools:**

- Python
- Terraform
- AWS
- JIRA
- GitHub
- Gitlab
- Splunk
- Snyk
- Adobe Marketo
- SonarQube

## **PROFESSIONAL EXPERIENCE:**

### **DELOITTE**

- Consultant (*September 2025 – present*)

**Project:** 10x Analyst – Agentic solutions for FSI Applications

**Role:** AWS and Python developer (Consultant)

## **Key Contributions:**

- Enabled “talk-to-data” for tabular data (CSV, Parquet, XLS) and added markdown-driven multi-format reporting (PDF/HTML/Reveal.js).
- Implemented persistent mapping to accelerate user workflows across sessions.
- Delivered enhancements with Python, Fast API, Pandas, SQL Alchemy, AWS (API Gateway, Lambda, DynamoDB).
- Upskilled on LLMs for agentic features; fixed 15+ major bugs, boosting system stability.
- Designed analytics/reporting for FSI use cases (bond, marketing, insurance).

## **IDP Education**

- Software Engineer  
*April 2024 – September 2025*
- Project Trainee (Full-time)  
*April 2023 – April 2024*
- Project Trainee (Internship)  
*May 2022 – April 2023*

**Project:** IELTS Marketing Automation

**Role:** Developer (Python & AWS)

## **Key Contributions:**

- Led development of data integrations and marketing communications solutions, delivering full end-to-end deployment of the IELTS Marketing Automation project.
- Served as primary developer and acted as team lead in the Tech Lead’s absence, collaborating across teams in India, Southeast Asia, Australia, Canada, the Middle East, and Europe.
- Drove marketing outcomes, helping exceed targets by 169% and 153% over consecutive years.
- Actively participated in milestone planning and Agile ceremonies with business stakeholders, ensuring on-time, quality delivery.
- Recognized as a top team contributor: nominated for Employee of the Quarter and Employee of the Year.
- Demonstrated strong skills in backend systems, AWS integrations, and Adobe Marketo CRM.
- Engaged in project management such as Program Increment planning and agile story tracking.

## **EDUCATION:**

### **Bachelor of Engineering (Computer Science and Engineering)**

*Bannari Amman Institute of Technology (2019 – 2023)*

- CGPA: 9.15
- Grade: First Class with Distinction

## **PROFESSIONAL CERTIFICATIONS & ACHIEVEMENTS:**

- **Global Excellence Awards:** Terrific Transformation: RTBF – Winner, IDP Education
- **Project Trainee Completion:** IDP Education
- **Cookie Consent Expert – Integrations:** One Trust
- **Django for Python Developers:** Udemy
- **Goal Setting – Objectives and Key Results (OKRs):** LinkedIn Learning
